PROFILE SUMMARY

Experienced leader and critical thinker with expertise in JavaScript, NodeJS, MongoDB, and ExpressJS!

Managed and collaborated with Lanepact teams to design and develop robust solutions that fulfill clients' demands for functionality, scalability, and performance.

As much as I enjoy winning, I feel more gratified when I win as part of a team. Having a Design Thinking Badge has taught me that the productivity limit of a team is infinite as long as every team member is on the same page.
